Dear Bruce,

Sorry to have taken so long getting back to you. I have been traveling in Malawi and did not check my mail while there.

I will be happy to stay in touch with you and King's Grant PC. I was in the US at the end of last year for Interpretation Assignment but a good bit of that time was taken up in having some surgery to remove a parathyroid gland and some other little health 'incidents' that popped up along the way so did not get to do as much visiting as I would have like. At this point I cannot foresee going back to the US this year and who knows about next year. I will be sure to let you know when I know.

As for prayer requests, I do have at least two for now. First, from about the 27 of July I will be leading a workshop comprised of instructors from various theological institutions in this area who are responsible for teaching about HIV and AIDS in their institutions. We started work on a curriculum on HIV and AIDS last July and must get it into a usable form this month. The time is too short for all that needs to get done but the folks are so committed and really hard workers. I would ask your prayers for guidance on what would be the best way forward and how this workshop should go. Also for safe travel for the participants. Many of them will be coming by bus starting in Malawi and picking up folks along the way. For the ones from Malawi, that will mean a 5 day trip.

The second prayer request is about what all I should do in Zimbabwe in August. This is a new country for me so it is a challenge to know how best to use the time I have there.

Please give my greetings to the folks at Kings Grant and thanks for the prayers. One of the things on my agenda for this week is to get out a news letter. I will be sure to include you in the mailing. Is there also a church eMail address I should use as well?

Blessings,

Janet
